

**⚠ WARNING ⚠**

**It is strongly recommended to use the installation tool with the installation of the PITT cooking unit!**

**Scan QR for video**

Follow step 1 through 10 of the official installation manual. When you've reached step 10, carefully follow this manual.

**Step 1**  
Press the installation tool(s) all the way down onto the (outer) gas tap(s).

**Step 2**  
Align the installation tool(s) concentric to the holes of the countertop.  
See step 11 of installation manual.

**Step 3**  
Place the scale of the control knob upside down over the installation tool.

**Step 4**  
Tighten the set screws until the installation tool aligns with the scale.  
See step 14, 16 and 17 of installation manual.

**Step 5**  
Remove the protective film from the adhesive strip.  
See step 20 of installation manual.

**Step 6**  
Press the scale down firmly onto the countertop.  
See step 20 of installation manual.

**Step 7**  
Remove the installation tool and press the control knob(s) on the gas tap(s).

**Step 8**  
Test the control knobs and make sure they spring back to their initial positions.  
See step 21 of installation manual.
